Webinar occurred on July 9, 2019; 12:00 pm – 1:30 pm EDT

"U=U in 2019: How Far We've Come and Where We're Going" is the second webinar in our WATCH! 2019 treatment advocacy webinar series. This webinar provides a progress report on the science behind U=U and the growth of the campaign; The Well Project survey data on understanding of U=U among women living with HIV and how they are learning about U=U; provider insights into their experiences discussing U=U with their patients; and a panel of advocates describing how U=U has impacted them personally and how they've seen their communities receive the U=U message.
