Table of Contents

- [US – Northeast and Mid-Atlantic](#)
- [US – West Coast / Southwest / Pacific Northwest / Mountain West](#)
- [US – Southeast](#)
- [US – Midwest](#)
- [Outside the US](#)
- [Infant Feeding Information from The Well Project](#)
- [Pregnancy Resources from The Well Project](#)

Below is a list of health and service providers (based primarily in the United States), by US region, who consider themselves to be knowledgeable *and* affirming regarding the information, support, and tools necessary to help women and other birthing parents living with HIV make informed infant-feeding decisions for themselves and their babies. We want to include a diverse array of such resources, from healthcare providers to legal services, peer support to lactation consultants, reproductive health and birth justice organizations, and more.

If the above description fits your practice and you would like your name, organization, or clinic to be added to this resource list, you are welcome to carefully fill out the form at the bottom of this page (or [access the form by clicking this link](#)).

Please allow at least several weeks for the page to be updated with your information. **Readers: Please be aware that these listings are self-reported, and that The Well Project is unable to review each entry for accuracy.**

[Choosing a method for feeding their babies](#) is one of the most important decisions expectant and new parents make. This decision can be even more complicated when the birthing parent is living with HIV. For those who may want to explore breastfeeding as an option, the information available to birthing parents living with HIV can be confusing – and not enough providers in the US and other resource-rich areas of the world have the information *they* need to support that decision-making process.

Thankfully, the situation is changing and there are a growing number of providers who can offer the information, services, and support you may seek. We hope to make many of those providers' information available on this page – so feel free to check the page periodically every few months, and if you are an HIV-affirming provider with infant feeding expertise, [fill out this form](#) to add your practice to the list!

For those working in the field who are interested in engaging in conversation or sharing insights or updates related to HIV and infant feeding options (including breast/chestfeeding), email oford@thewellproject.org to be added to the growing HIV and Infant Feeding listserv.

US – Northeast and Mid-Atlantic

Children's Hospital of Philadelphia Special Immunology Family Care Center

[Elizabeth Lowenthal](#)

Philadelphia, PA

Phone: 215-590-2956

Perinatal counseling, infant care, HIV-related care

Family Health Center of Worcester

(Family Medicine HIV Specialist who provides OB/Maternity care)

Philip Bolduc

26 Queen Street

Worcester, MA 01602

Email: philip.bolduc@fhcw.org

Phone: 508-860-7858

Full-spectrum Family Medicine, including obstetrics and pediatrics, including HIV specialty care. We also provide integrated addiction and mental healthcare.

[Greater Lawrence Family Health Center](#)

Katrina Baumgartner

150 Park Street

Lawrence, MA 01841

Phone: 978-685-1770

Comprehensive HIV care in a primary care setting in consultation with HIV Specialist (AAHIVM certified) and care management team (nurse, pharmacy, social work), including prenatal, intrapartum, postpartum, infant, pediatric and adult care. Lemon Grove, CA 91945
Email: charda@melaninmilksd.com
Phone: 619-841-1160

Clinic lactation support and birthing education with a specific focus on empowering marginalized communities in San Diego County (in clinic, home visits and Telehealth) and nationwide and internationally via Telehealth.

UCLA CARE-4-Families Program

Michele Carter
10833 Le Conte Ave
Los Angeles, CA 90095
Email: mfcarter@mednet.ucla.edu
Phone: 310-206-6369

The UCLA CARE-4-Families Program provides comprehensive clinical care, educational and psychological support, and access to state-of-the-art clinical trials for people who are pregnant and living with HIV, HIV-exposed and -positive infants, adolescents living with HIV, and children living with HIV. We support informed, shared infant-feeding decision-making.

UCLA

Tara Vijayan
200 Medical Plaza, Suite 365C
Los Angeles, CA 90996
Email: tvijayan@mednet.ucla.edu
Phone: 310-206-7663

HIV care provider primarily serving men, but also serving women and pregnant clients living with HIV

UCSD Mother, Child and Adolescent HIV Program (UCSD MCAP)

Karen Deutsch, NP
4076 Third Avenue
San Diego, CA 92103
Email: kgdeutsch@health.ucsd.edu
Phone: 619-577-0949

UCSD MCAP Program provides Women's health, Obstetric, Pediatric and Adolescent Care in San Diego County for clients living with HIV and HIV exposed infants. We have a supportive team of providers and social workers, and we partner with hospitalists, community lactation and doula services to provide the best possible care for our patients and their families. The MCAP team is happy to be a resource in San Diego County as we support each client through their childbearing and infant feeding journey. We have established an incredible network of service providers who are supportive of infant feeding decisions and who work closely with us to create a comprehensive care team.

UCSF Women's HIV Program and Pediatric Infectious Disease

(Infectious Disease; Pediatrics; OB/GYN)
Emmy Naranjo-Cabatic
350 Parnassus Ave, Suite 908
San Francisco, CA 94117
Email: emmy.naranjo-cabatic@ucsf.edu
Phone: 415-353-2119

WHP utilizes a holistic, trauma-informed model of care that involves a coordinated and cohesive team of professionals, integrating medical care and psycho-social services. We provide care to woman-identified people with HIV at all stages of life. For our pregnant patients and new parents, we coordinate care with your obstetric provider, either at UCSF Health or elsewhere, and UCSF pediatric infectious disease providers.

UCSF Benioff Children's Hospital Oakland

Ellen James

747 52nd Street

Oakland, CA 94609

HIV primary care, HCV treatment, Gender-Affirming Care, PrEP, PEP, Case management, Community Outreach events and testing. We provide patient-centered care in a safe, respectful setting to underserved people in our community.

University of Washington

Rena Patel

325 9th Ave

Seattle, WA 98105

Email: rcpatel@uw.edu

Phone: 206-744-5000

HIV care provision during preconception through postpartum periods

US – Southeast

Ben Taub Hospital, Harris Health System

Stephanie Deal

1504 Taub Loop

Houston, TX 77030

Email: sbdeal@bcm.edu

Phone: 713-873-3515

I provide inpatient newborn care and lactation support to parents during their birth hospitalization at Ben Taub Hospital. I can also provide prenatal consultations regarding lactation for people living with HIV who wish to provide breastmilk to their infants.

To provide the best care for pregnant patients living with HIV and their infants, I work closely with Dr. Jennifer McKinney, a high-risk obstetrician who specializes in the care of pregnant people living with HIV, and a group of pediatric HIV specialists who follow these infants after discharge.

Carilion Infectious Disease

2001 Crystal Spring Ave SW

Suite 301

Roanoke, VA 24014

Email: jrfaulhaber@carilionclinic.org

Phone: 540-981-7715

A Ryan White-funded comprehensive infectious disease care for people living with HIV. Also provides case management.

CrescentCare

(Family Medicine/HIV Primary Care)

Jolie LeBlanc

3308 Tulane Ave

New Orleans, LA 70119

Email: jolie.leblanc@crescentcare.org

Phone: 504-821-2601

Provide primary care to underserved populations of the New Orleans metro area including people living with HIV. Provide full-spectrum family medicine care including prenatal & pediatric care, as well as Hepatitis C treatment and opioid addiction services. Clinic also has case management and mental health services.

Duke Family Medicine

Andrea Dotson

2100 Erwin Rd

Durham, NC 27705

Email: andrea.dotson@duke.edu

Phone: 919-684-6721

Breastfeeding medicine and lactation services, full-spectrum care including primary care, pediatrics care, and OB care. We work closely with infectious disease, pediatric infectious disease, and maternal fetal medicine to provide multidisciplinary care for families affected by HIV.

Duke Maternal Fetal Medicine

Elizabeth Livingston

2408 Erwin Road

Durham, NC 27705

Email: Elizabeth.Livingston@duke.edu

Phone: 919-681-5220

Providing prenatal care to persons living with HIV; working with Duke Adult ID and Duke Pediatric ID to assist pregnant persons

Duke University Hospital - Pediatric Infectious Diseases

Jennifer Dougherty

2301 Erwin Road

Durham, NC 27705

Email: jennifer.dougherty@duke.edu

Phone: 919-684-6335

We have Ryan White funding and care for pediatric patients with HIV as well as babies born to mothers living with HIV. We have a multi-disciplinary team that coordinates and provides care to pregnant moms and their babies. We have outreach, social work and breastfeeding medicine support. Our program has supported several mom-baby pairs to breastfeed while living with HIV. Please reach out for more information.

US – Midwest

Care2Prevent at The University of Chicago

(Infectious Disease Healthcare Provider, Pediatrics)

Julia Rosebush

5837 S. Maryland Ave., MC 6054, Ste C-623B

Chicago, IL 60637

Email: jrosebush@uchicagomedicine.org

Phone: 773-834-8518

Care2Prevent champions stability and upholds dignity through client-focused support, enabling self-directed progress within the continuum of HIV care. By prioritizing autonomy and the provision of innovative services, we aim to reshape and elevate the landscape of HIV care provision for individuals and their families on Chicago's South Side.

Children's Mercy Kansas City

Diane Petrie

2401 Gillham Road

Kansas City, MO 64108

Email: drpetrie@cmh.edu

Phone: 816-234-3061

Pediatric Infectious Diseases - monitoring infants following birth. We are working to create protocols to share and collaborate with local adult ID providers and OB providers.

Helen DeVos Children's Hospital of Corewell Health

Rosemary Olivero

35 Michigan St NW

Grand Rapids, MI 49503

Email: rosemary.olivero@helendevoschildrens.org

Phone: 616-267-2183

Perinatal consultation, postnatal consultation and care of HIV-exposed infants, HIV management in infants, children, youth and young adults. Our clinic and providers support a multidisciplinary approach to informed decision-making around maternal and infant HIV care.

Metrohealth Medical Center

Kristi Langshaw, LISWS

2500 Metrohealth Dr
Cleveland, OH 44109
Email: Klangshaw@metrohealth.org
Phone: 216-778-5582

Metrohealth is a Center of Excellence in HIV care and prevention. We serve around 2,000 patients living with HIV, providing multidisciplinary healthcare and social support. Together with our OBHR clinic, we support shared decision making for birthing parents considering infant feeding options/breast/chest feeding.

Northwestern Medicine Women's Perinatal Infectious Disease Clinic

(Infectious Disease Healthcare Provider, OB/GYN)

Brianne Condron, RNC
Chicago, IL 60611
Email: bcondron@nm.org
Phone: 312-472-0932

We are a multidisciplinary clinic of Maternal Fetal Medicine physicians, Infectious Disease physicians, nursing and Social Work caring for pregnant persons with HIV. We deliver between 20-30 HIV exposed babies a year and support shared decision making in breast/chestfeeding.

[Ryan White Center for Pediatric Infectious Disease and Global Health](#)

Leslie A. Enane
575 Riley Hospital Drive
Indianapolis, IN 46202
Email: PINFSHRD@iupui.edu
Phone: 317-944-7260

Our team is available for consultation to expecting parents living with HIV regarding infant feeding choices. As pediatric infectious disease specialists, our services include: consultation on infant feeding choices; prevention and testing for HIV in infants; HIV treatment for infants, children, and adolescents; and prevention and management for other infectious diseases. We serve families from across Indiana. We encourage expecting parents to contact us during pregnancy to begin to discuss plans around infant feeding and to get to know our clinic. We support informed decision-making for parents.

Outside the US

Pamela Morrison

Lactation consultant, private practice
3 Barnsite Close
Rustington, West Sussex BN16 3QH
United Kingdom
Email: pamelamorrisonibclc@gmail.com
Phone: +441903783431

Remote provision of information on breastfeeding with HIV for mothers to share with healthcare providers, and support and assistance to breastfeed after birth. Information and support for mothers living with HIV to make an informed infant feeding decision and carry out their wishes. Assistance to exclusively breastfeed. Experience helping mothers living with HIV to breastfeed in Europe and overseas since 1995.
